the kim do experience

Who is this Kim?

I am an advertising student at the University of Texas @ Austin. I usually spend more time doing everything else other than school work. Chances are you'll find me taking naps and dreaming up crazy ideas.

However, when I'm not napping, there are many things that spark my interest.

Home About Me Portfolio

WELCOME TO THE PERSONAL SITE OF EVELYN CHANG.

Here you will find my resume, a portfolio that highlights some of my school projects, and a little bit about me. This is just the barebones of my site. There's not much here now but in the future there will be once I have more projects to display. Please come and check back later. Meanwhile, I hope you like what you see.

Welcome to my Professional Site

Hi, my name is Maanit Shah and I am a sophomore at the University of Texas at Austin. I am majoring in Computer Science. I also want to pursue a minor in photography, but UT does not have a specific minor for photography, so I will do that at a graduate school somewhere else. I have been doing professional photography for over 5 years now, and have been the

Getting Connected: Step-by-Step

If you live in a campus residence hall, you have access to broadband Ethernet at the University of Texas at Austin. This page provides instructions to help you connect to Resnet. Follow the instructions. If you have any problems or questions, see the [Support page](#) on this Web site for options.

Before You Begin

See complete [requirements for using Resnet](#).

Before you can connect your computer to Resnet, you need:
